Acidell in Costa Rica

057610 VH

EIJ 13 min 2003 Landmark Media
Inc

Locomotion Series - 12 year-old
Acidell lives in a part of Costa Rica
that has no paved roads. When his
mother sends him to get a paper, he
lays aside his bicycle, rides his horse,
hitches a ride with a company truck,
and completes his mission with the
help of a helicopter pilot.

Africa

065076 VH

IJS 60 min 1997 Cable In The
Classroom

Going Places Series - This episode
includes a look at a gold mine, the
island where Nelson Mandela was
imprisoned, and a drive through a wild
animal park.

Africa

096290 VH

IJ 27 min 1991 National Geographic
*Physical Geography of the Continents
Series* - Come and explore Africa - the
second largest continent. It is the only
continent found in all four
hemispheres. This video looks at
climates, people, and animals of this
unique continent.

Africa: An Introduction

076230 VH

IJS 21 min 1981 Bfa Educational
Media

An overview of the geography of
Africa and the many different people
who make up its population. Shows
the major differences in geographic
regions. Explains how and why the
lives of the people of Africa differ from
one area to another.

Africa: Land and Resources

040689 VH

IJS 23 min 2000 Michigan
Instructional Tv

Geography of the World Series -
Students in grades 6-12 will tour the
world's second-largest continent,
exploring its diverse physical features
and natural assets. The wide variety
of landscapes including deserts, rain
forests, and large grassy savannas
are discussed. Issues about
agriculture; fertile soil shortages,
drought, disease and insect threats
are covered, and how techniques such
as irrigation and disease-resistant
crops are being applied.

Africa: Living in Two Worlds

079630 VH

IJS 17 min 1970 Encyclopedia
Britannica

This video illustrates the contrasts
between centuries-old tribal
communities and customs and the
new African nations, typified by
mechanization, growing city
populations and the people's intense
desire for education.

African & African-American Religions

056738 VH

JS 50 min 1999 Library Video
Company

Religions of the World Series - Learn
about the cultural diversity of Africa
through its many religions. See how
shared elements of various customs
serve as unifying threads across
tribes, centuries, and even continents.
Discover how African-American
Christianity, Haitian Voodoo, and
Cuban Santeria have been influenced
by Christianity and traditional African
religions.

African Art and Personal Adornment

057417 VH

IJ 50 min 2000

*Cultural Collaborative for Learning
Series* - Discover how arts of personal
adornment - including clothing,
hairstyle, scarification, and jewelry -
express identity in different traditional
African cultures. (Detroit Institute of
Arts)

After the Glaciers

062985 VH

IJS 11 min 1975 Aims Media

This video shows how much of the
Northern Hemisphere surged back to
abundant life during the Ice Age's
retreat. Plant succession, beginning
with lichens and mosses clinging to
rocks and ending with a soaring
climax forest, is the film's central story.

Agriculture, Recreation, Fishing

IJ 15 min 1995 Mich. United
Conservation Club

*Michigan Great Lakes Coastal Zone
Series* - See annotation for
Threatened and Endangered Species.

Alaska & Hawaii

076970 VH

IJ 26 min 1983 National Geographic

U.S. Geography Series - Visit the 49th
and 50th states, and see the highest
mountain peak, the most active
volcanoes, and the northernmost,
westernmost, and southernmost points
of the United States. These states are
unrivaled in natural beauty and
enriched by the contributions of native
populations.

Alaska: The 49th State (3rd Edition)

068480 VH

IJS 23 min 1985 Encyclopedia
Britannica

Massive, majestic, rich in resources,
Alaska has become a hotbed of
controversy, a land with an exciting but
uncertain future.

Alaskan Earthquake - 1964

069900 VH

IJS 20 min 1966 National Av Center

Uses animated scenes, documentary
footage and models to show the
causes of earthquakes, the locations
of principal earthquake zones, and the
relationship between geologic
environment and earthquake damage.

Alaska's Great Race: Susan Butcher Story

098360 VH

JS 57 min 1985 Iditarod Trail
Committee

Susan Butcher and her dog team are
struck by tragedy in her bid to win the
1985 Iditarod, the most demanding
sled dog race of all. The Iditarod Trail
covers 1,049 miles through mountain
ranges and over frigid sea ice, from
Anchorage to Nome. Termed the last
great race, the best dog mushers in
the world come to compete.

SOC.II.2 Human/Environment Interaction

Alien Invaders: Exotic Species in the Food Web of the Great Lakes

097175 VH
JS 58 min 1991
Science Bag Series - This video gives background definitions of "exotic species," the means and routes by which exotic species reached the Great Lakes, the food web in the Great Lakes and the disruption of the food web by exotic species. Quiz and discussion included.

057244 VH
JS 60 min 2002 Cable In The Classroom
Save Our History Series - This program explores some of the most famous lighthouses that line America's coasts, recounting their historical significance and looking at the efforts being taken by preservationists to save them. 09/02 CIC History Channel

Americans Build the Panama Canal (1901-1914)

040152 VH
JS 20 min 1990 Michigan Instructional Tv
Geography in U.S. History Series - This program provides a brief overview of the development and significance of the Panama Canal.

America's Symbols

040626 VH
PEI 10 min 2000 Michigan Instructional Tv
Primary Citizenship Series - America has many symbols which stand for its values: the Statue of Liberty, the Liberty Bell, Constitution Hall, Washington D.C. and its buildings & monuments, the Bald Eagle, and documents such as the Declaration of Independence and the Constitution. We'll help children understand what they mean to Americans.

Ancient and Modern - The Fall and Rise of the Middle East

079095 VH
JS 25 min 1985 Encyclopedia Britannica
Middle East Series - Why did the Middle East decline just as the Renaissance in Europe began? This video probes the economic factors that helped cause the region's stagnation and explores other internal and external developments.

Ancient Maya Indians of Central America

079290 VH
IJ 9 min 1971 Encyclopedia Britannica
This video shows how the Mayan civilization, which was mainly agrarian, reached its peak of power during periods of peaceful expansion.

Ancient Religions of the Mediterranean

056739 VH
JS 50 min 1999 Library Video Company
Religions of the World Series - Trace the spiritual history of the Mediterranean Basin by examining the ancient cultures that have greatly influenced the religions of the modern world. From Mesopotamia and Egypt to the empires of Greece and Rome, discover the mythologies, gods, and rituals that played an important role in the social and political lives of these ancient peoples.

Ancient Times

055184 VH
PEI 60 min 1998 Cable In The Classroom
TLC Elementary School Series - "Ancient Egypt" explores the society of the civilization that flourished with the Nile River as its lifeline. "Hieroglyphics" looks at the picture writing used by ancient Egyptians for more than 3,000 years. "Pyramids of Egypt" looks into why and how these engineering marvels were constructed. Other sections include "Statue of Zeus", "Minoan Mystery", "Write Chinese", "Secrets of the Moche", and "Mustang: A Tale of Two Journeys". CIC 12/98

Andean Region

098475 VH
IJ 20 min 1991 Encyclopedia Britannica
South America Series - Colombia, Ecuador, Peru, Bolivia and Chile are located in the region of the famed Andes mountains. This video tells how that fact has shaped their histories, their people, and their economies.

Animals on the Farm

097215 VH
PE 15 min 1992 National Geographic
Introduces the characteristics of poultry, dairy cattle, and pigs and shows the way farmers care for the different kinds of livestock; also shows the products of these animals in the supermarket.

SOC.II.2 Human/Environment Interaction

Antarctica

096295 VH

IJ 25 min 1991 National Geographic
Physical Geography of the Continents Series - Visits the world's driest, coldest, windiest and iciest continent, and introduces many of the marine animals that live there during the summer.

Antarctica: Getting Around

056100 VH

EIJ 30 min 2000 Cable In The Classroom

3-2-1 *Contact Series* - This episode explores the dangerous and difficult nature of traveling around at the bottom of the world, including climbing out of a crevasse, flying to the South Pole, and driving over ice. 9/00 CIC Nickelodeon

Antarctica: Getting There

056099 VH

EIJ 30 min 2000 Cable In The Classroom

3-2-1 *Contact Series* - This episode illustrates the difficulties of traveling from the U.S. to Antarctica and takes a look at the emperor penguin. 9/00 CIC Nickelodeon

Antarctica: Life on the Edge

056109 VH

EIJ 30 min 2000 Cable In The Classroom

3-2-1 *Contact Series* - This episode explores the places where penguins and seals thrive in an otherwise harsh climate where almost nothing else can live. 10/00 CIC Nickelodeon

Antarctica: Life Under the Ice

056110 VH

EIJ 30 min 2000 Cable In The Classroom

3-2-1 *Contact Series* - This episode explores the wealth of sea life in the icy waters surrounding Antarctica, including jellyfish and a fish species that has antifreeze in its body. 10/00 CIC Nickelodeon

Arabia: Sand, Sea, & Sky

056526 VH

S 80 min 1990 National Geographic
Take a stunning tour of Arabia's natural world. Begin in the magnificent coral reefs of the Red Sea, move onto the great mountain barrier, descend into the foothills, and finally travel by camel across the immense sculpted desert.

Archways to Our Past:

Michigan's Historic Highway Bridges

056008 VH

IJS 26 min 2000

Michigan is replete with historic bridges. Whether in cities or along country back roads, these architectural relics hold clues to a time when daily life was quite different than it is today. This is a story about Michigan's early years as told through her historic bridges.

Argentina

051689 VH

51 min 1990 Teacher Discovery
Spanish for "silver", this is surely a land of natural wealth and beauty. Bring Argentina into your classroom in glorious color, with narration and music.

Argentina

098430 VH

IJ 18 min 1990 Barr Film And Video

This program examines the many geographical regions of the country - the Andes, Patagonia Desert, Eastern coastal region and northern equatorial jungle - and the wildlife found in these areas. Learn of the country's people, cultures, history and political evolution.

Argentina: Frederico in Argentina

057432 VH

PEI 13 min 2002 New Dimensions

Let's Dance! Series - Frederico and his young sister are a pair of Tango dancers, and they constantly practice and study this classic Argentine dance form under their parents guidance. Among a group of adults, young Frederico and Adrianna are a big success.

Argentina: Rosario in Argentina

057497 VH

PEI 13 min 2000 New Dimensions

There Is No Food Like My Food Series - Rosario is 11 today! After eating a breakfast of stuffed croissants, rye cakes, and other delicacies, she shops with her mother for her birthday party. They will eat torta frita, a fried cake, and then later on the hacienda, a grand barbecue, known as asado.

Arttu in Finland

057606 VH

EIJ 13 min 2003 Landmark Media Inc

Locomotion Series - Snow biking is great fun for a 7 year old from Lapland who also enjoys fishing and boating in this area divided by 5000 lakes. His remote village is 25 miles away from school, so the bus ride takes an hour. Some students living closer get there by skateboard or roller-blading.

Asia

053913 VH

JS 60 min 1997 Cable In The Classroom

Travelers Series - The travelers visit a deity offering in Hong Kong, look at an ancient pegeant in Japan, play wild games at a harvest festival in the Phillipines, and join a celebration in India that pays homage to a former king.

Asia

096300 VH

IJ 25 min 1991 National Geographic
Physical Geography of the Continents Series - Explores the world's largest and most populated continent, from its frozen Arctic lands to equatorial rain forests, including more sparsely populated areas and regions where populations thrive.

Au Sable: The River that Came Back

071705 VH

JS 28 min 1969 Consumers Power

This film brings a note of hope about the problem of pollution. It shows not only how the Au Sable became polluted, but the measures that are being taken to restore the river.

Australia

056687 VH

JS 30 min 2001 Cable In The Classroom

World Odysseys Series - This episode travels to the world's smallest continent and largest island, exploring the Great Barrier Reef and the untouched Daintree Forest. 10/01 CIC The Travel Channel

Australia

077260 VH

I 16 min 1987 National Geographic

Families of the World Series - Visit 11-year-old Catherine Inall at home in Sydney and at school, then travel with her to remote Angledool Station, where she spends part of her Christmas vacation with family friends.

Australia

096305 VH

IJ 25 min 1991 National Geographic

Physical Geography of the Continents Series - Travels "down under" to reveal the varied landforms and habitats of the island continent, including its bleak deserts, snow-capped mountains, lush tropical rain forests, and bustling urban centers as well as its unique plants and animals.

Australia

For descriptions see individual titles:

Australia: Down Under and Outback [093005]

Australia: Down Under and Outback

093005 VH

JS 25 min 1973 National Geographic

Australia Series - Australia was England's dumping ground for convicts and is still striving for identity. The viewer will learn of the isolated cattle ranches, the meaning of aboriginal paintings on the monolith called Ayers Rock, and native animals.

SOC.II.2 Human/Environment Interaction

Australia: Platypus and Echidnas

056262 VH
EIJ 30 min Cable In The Classroom
3-2-1 *Contact Series* - This episode tracks these two unusual animals found only in Australia. 01/01 CIC Nickelodeon

Australia's Twilight of the Dreamtime

073020 VH
JS 59 min 1988 National Geographic
Meet four Aboriginal men, the living "library" of a cultural tradition unbroken for 40,000 years. These four keep alive the complex harmony of the "Dreamtime," which united the real with the mystical, humans with supernatural beings and past with present.

Baka: People of the Forest

075550 VH
S 59 min 1989 National Geographic
PREVIEW BEFORE SHOWING.
Travel to a remote Cameroon rain forest and meet the remarkable Baka people. Through the eyes of one family, we learn how the Baka integrate their lives with their rain-forest environment.

The Baking Deserts

096715 VH
JS 55 min 1984 Ambrose Video Publishing, Inc
Living Planet Series - Heat and drought, the demanding conditions that desert life has adapted to. Beetles and some plants collect fog for water. Lizards gear their life to the precise position of the sun. And tadpoles turn cannibal before their pool dries out.

Barcelona

051683 VH
JS 22 min 1987 Teacher Discovery
Discover its rich architectural styles and spellbinding colors. Stately European and marvelously Mediterranean, the city that inspired Picasso, Miro and Salvadore Dali is a seamless blend of modern and medieval, with the temperament of seafarers and the nobility of kings.

Beach

040450 VH
EIJ 10 min 1999 Michigan Instructional Tv
Shorelines Series - Introduces students to shoreline communities on North American coasts including rocky and sandy shores. From the intertidal zone to maritime forest, the program describes the forces that shape shorelines and the life they support.

Behind Closed Doors with Joan Lunden

For descriptions see individual titles:
U.S. Treasury & the Private Warehouses of the Smithsonian [057264]

Betrayal of the Great Lakes

096200 VH
S 60 min 1991 Michigan Public Broadcasting
Michigan at Risk Series - After 20 years, the American and Canadian governments have failed to achieve their zero discharge goals for the Great Lakes and new pollution control legislation appears riddled with loopholes. This program focuses on the events of the biennial meeting of the International Joint Commission last September in Traverse City.

Beyond Communism

For descriptions see individual titles:
People of Perestroika-Baltic Way [065790]
People of Perestroika-Russian Federation [065795]

Beyond Timbuktu

076235 VH
S 60 min 1988
Nature Series - This program travels past Timbuktu to Mali in West Africa to observe migratory birds in their winter habitat. Features harriers, marsh owls and black-tailed godwits.

The Bible and the Gun(#5)/This Magnificent African Cake(#6)

091920 VH
S 106 min 1986 Films Incorporated
Africa: Voyage of Discovery Series - #5-The slave trade decimated the African population and tore the fabric of society. Then new kinds of interlopers came - explorers, missionaries, and Cecil Rhodes. #6-A 30-year "Scramble for Africa," begun in 1989 dramatically changed the continent. Nearly all of Africa became subject to colonial rule until World War II.

Big Bird in Japan

076340 VH
PEI 58 min 1989 Public Broadcasting System
Follows Big Bird and Barkley on their visit to Japan as they learn about different foods, customs and language. They attend school, attempt to eat with chopsticks, learn to greet with a bow and take their shoes off before entering a home.

The Big Dinner Table

060835 VH
P 13 min 1978 Perennial Films
Families all over the world show how their nutrition comes from the same "basic four" upon which we also depend for our own health. The numerous variations on milk, meat, bread and cereal, and fruits and vegetables can satisfy any appetite and still provide proper nutrition.

Bill Nye, The Science Guy

For descriptions see individual titles:
Desert [051136]

Biomes: Adapting to Deserts and Other Ecosystems

057715 VH
JS 60 min 2004 Cable In The Classroom
Trek to extreme ecosystems to see how animals adapt to their environments. The unique adaptation of crocodiles, Asia's harsh habitat and dry land are shown, along with adaptation of flying birds, exotic horses, and endangered cranes.

Biomes of the World in Action

Fun, informative series that takes students on a fast-paced eco-adventure around the world exploring the many characteristics that make these large regions of the world different from each other. Each program includes a stimulating experiment that students can replicate in the classroom.

For descriptions see individual titles:
Deserts [056732]
Grasslands [056734]
Marine Ecosystems [056735]
Tundra [056737]

Bolivia

051686 VH
JS 45 min 1987 Teacher Discovery
Be amazed at the sights and sounds of Bolivia's large cities and small villages. Lake Titicaca, mule trains and llama caravans, reed boats traversing to Copacabana. Outstanding scenery of Santa Cruz, beautiful mountain ranges, Bolivian textiles.

Braving Alaska

097405 VH
JS 60 min 1992 National Geographic
Examines the lifestyles of and challenges faced by four families living in a world "untouched by pressure or progress." Included are comments from a bush pilot.

Brazil

096985 VH
IJS 20 min 1990
South America Series - This program investigates the country, from the Amazon rain forest to its ultra modern cities, the attempts at industrialization and the resulting problems. It provides an in-depth view of the lifestyles and heritage of the Brazilian people. BFA

Brazil and Northern Countries

098480 VH
IJ 20 min 1991 Encyclopedia Britannica
South America Series - Brazil and Venezuela are the main topics of this video. They're large in size, small in international influence. They're rich when it comes to resource but poor when it comes to being able to provide for all their people.

SOC.II.2 Human/Environment Interaction

Brazil: Energy in Sao Paulo

057350 VH
IJS 15 min 2002 New Dimensions
Changing Cities Series - Brazil's largest city depends upon a huge dam to supply 80% of its energy, but more such projects are not environmentally acceptable. So, children show us how wood and sugarcane byproducts, and alcohol from sugar crops, are being developed as renewable energy sources.

Bread: From Wheat to Table

078220 VH
PEI 12 min 1988 Encyclopedia Britannica
The viewer is taken on a journey from field to mill to modern industrial bakery inviting him to participate in the exciting step-by-step process of bread making.

Bread Is For Eating

080332 DV
PE 30 min 2004 Gpn
Reading Rainbow Episodes Series - Hosted by LeVar Burton, authored by David and Phyllis Gershator. Theme: Bread, in its many varieties, is a staple of cultures around the world. The process of making bread, from growing the grain to baking it, is illustrated in a song sung in English and Spanish. LeVar talks about how differences in cultures impact this common food. A native American Hopi woman shows how she makes blue cornmeal bread, and an East Indian restaurant is visited where bread is baked in a tandorri oven.

Breads and Cereals

092645 VH
IJ 10 min 1982 Beacon Films
Food for Thought Series - Provides basic nutritional information about this food group. It shows production, processing and explains its contribution to proper diet.

Breki in Iceland

057611 VH
EIJ 13 min 2003 Landmark Media Inc
Locomotion Series - Breki, 13, lives in Iceland's capital Reykjavik but usually spends his summers at his uncle's farm. There are no trains or subways in Iceland, so he travels by propeller plane. Breki and his sister use scooters and bikes to get to school.

Buddhism

056740 VH
JS 50 min 1999 Library Video Company
Religions of the World Series - Discover the history behind the philosophy that has led millions of followers on a quest for spiritual enlightenment. From its origins in central Asia, see how different Asian cultures have adapted the teachings of Buddha over time.

The Building of the Earth

096690 VH
JS 55 min 1984 Ambrose Video Publishing, Inc
Living Planet Series - Huge forces formed the earth, moving continents, creating amazing variety. Visit an erupting volcano in Iceland, find giant plants on Mount Kenya, and see the recolonization of wildlife in Krakatoa and Mount St. Helens - scenes of the planet's awesome power.

Burke and Wills: Australia, 1860

068560 VH
IJS 52 min 1977 Time-Life Video
Ten Who Dared Series - Burke and Wills were the Lewis and Clark of Australia. Although Burke and Wills crossed Australia overland and explored much of its vast unmapped interior, their elaborate precautions and preparations proved futile in the face of the elements.

Burundi: Nsengiyuma in Burundi

057433 VH
PEI 13 min 2002 New Dimensions
Let's Dance! Series - Nsengiyuma lives in equatorial Africa, and is learning about Inhore warrior dancing. He hears that his village's Inhore dance troupe has to replace an old dancer, so now is his chance to show what he can do.

California and the Southwest

075700 VH
JS 15 min 1988 Coronet Film And Video
U.S. Expansion Series - Three hundred years before Americans entered the region, the Spanish brought civilization, religion, a quest for gold and opened up trade routes with the United States and Mexico. This film chronicles the people and events leading to the annexation of the territory.

The Call of the Wild

057694 VH
IJS 90 min 1993
Rick Schroder stars in this 1993 adaptation of Jack London's story of self-discovery in the Yukon. CIC 05/04 Hallmark

The Call of the Wild

067430 VH
IJS 105 min 1972 Guidance Associates
This video visual depicts the classic Jack London tale of survival in the Alaskan wilderness.

Cambodia: Children of the River

057061 VH
IJS 30 min 2002 Aims Media
This fascinating video gives viewers a personal glimpse of the culture and people of Cambodia who are known for their love of the sensuous gifts of nature. It is a country rich in myth and morality handed down by the fine art of storytelling.

Canada: A Holiday in Pictures

060905 VH
IJS 30 min 1977 Kodak Video
A visit with the Inuit people who live in the frozen northland near the Arctic Circle. A logging competition in Sooke, British Columbia, and a dance to celebrate the Festival of the Tartans.

Canada: True North

For descriptions see individual titles:
The Immigrants [078885]
The Relationship [078870]
A Song for Quebec [078880]
Where is Here? [078875]

Canada's Resources & Industries

057147 VH
EI 19 min 1997
Investigate Canada's natural resources and how they dictate industry. Canada's wealth of natural resources are shown, including fishing, forestry, mining, agriculture, vast water resources, and wildlife. Learn the difference between renewable and non-renewable resources.

The Canadian Way of Life

057050 VH
EIJS 21 min 1994 Aims Media
The Way of Life Series - This program presents a broad overview of the world's second largest country. Rich in natural resources like petroleum and forests, Canada enjoys the world's second highest standard of living. While the U.S. and Canada drift closer together economically and culturally, Canada strives to preserve its distinct national identity.

Caravans of Gold(#3)/Kings and Cities(#4)

091915 VH
S 106 min 1986 Films Incorporated
Africa: Voyage of Discovery Series - #3-Traces the roots of the medieval gold trade - which reached from Africa to India, China and Italy - and examines its influence on the African continent. #4-Kano, Nigeria, is one example of an African kingdom. There, a king still holds court in his 15th century palace and ancient rituals continue to command the respect of the people.

SOC.II.2 Human/Environment Interaction

Caribbean

055864 VH
JS 30 min 2000 Cable In The Classroom
World Odysseys Series - This episode features the group of islands scattered throughout the sea off the Central and South American coasts.

Caribbean Coast

096980 VH
IJS 23 min 1990 Bfa Educational Media
South America Series - This program compares and contrasts the countries in the northern region of South America: Venezuela, Colombia, Guyana, Surinam, and French Guiana.

Caribbean & Mexico

057027 VH
IJS 30 min 2002 Cable In The Classroom
Amazing Destinations Series - Travel to various locations in Mexico and the Caribbean, including the Yucatan Peninsula, Campeche, and Quintana Roo. 05/02 CIC Discovery Channel

Cathedral (Long Version)

062570 VH
IJS 60 min 1985 Public Broadcasting System
This program takes viewers to France's most famous and awe-inspiring cathedrals, traveling back in time to 1214 to explore the design of Notre Dame de Beaulieu, a representative Gothic cathedral shaped by cultural and religious forces.

Cave Dwellers of the Old Stone Age

079670 VH
JS 18 min 1960 Encyclopedia Britannica
The life of Neanderthal and Cro-Magnon cave dwellers is recreated from artifacts, skeletons, cave paintings, and dramatic scenes reconstructed in the Dordogne region of S.W. France.

Central America

077015 VH
JS 25 min 1987 National Geographic
Nations of the World Series - While most of the region shares an Indian and Spanish heritage and a tropical climate, the seven Central American countries differ in terms of economic development, cultural traditions, and political stability.

Central America

077265 VH
I 16 min 1987 National Geographic
Families of the World Series - Oswaldo Gaitan lives in Nicaragua, a country that is turbulent both geologically and politically. We met his parents, a shoemaker and a seamstress, and the active volcano near his home. Accompany him to a street festival and a baseball game.

The Central Lowlands

092910 VH
IJ 20 min 1989 National Geographic
Physical Geography of North America Series - Shows fertile heartland of central Canada and United States, follows the course of the Mississippi-Missouri river system, examines relationship of geography and weather in the region, and notes typical flora and fauna.

The Champs Elysees with Halle Berry

056274 VH
JS 60 min 2000 Cable In The Classroom
Great Streets Series - In this episode, Berry traverses Paris from the Obelisk to the Arc de Triomphe. 01/01 CIC PBS

Changing Cities

More than half of the earth's people now live in cities, which is one of the most significant changes in world geography and cultures. As cities grew too rapidly in the 20th century, they created enormous problems. This series shows how world cities have begun to create solutions.
For descriptions see individual titles:
Brazil: Energy in Sao Paulo [057350]

Clash of the Cultures on the Great Plains (1865-1890)

040150 VH
JS 20 min 1990 Michigan Instructional Tv
Geography in U.S. History Series - Chief Red Cloud speaks to his Lacota people telling them about tragedies he and his people experienced through contact with white Americans.

The Climate Factor

072965 VH
IJS 25 min 1984 National Av Center
Climate affects all of our lives every day. It determines our forms of shelter, clothing and food we eat. Explores the many ways climate has affected our earth since early times.

Climates of the United States (Revised)

073305 VH
IJ 13 min 1978
From subarctic to tropical savanna, this film is a broad survey of eight major climatic regions of the United States. It focuses on how climate affects the population, activities, economy and lifestyle in each region.

Clues

076490 VH
S 60 min 1987
Ring of Truth Series - In a handful of gravel dredged up from the bottom of the Mediterranean Sea, scientists have drawn a startling conclusion: the Mediterranean was once an arid, windy, salt desert. How can they make such dramatic claims when their only clues are the materials they gather with powerful undersea drill ships? Philip Morrison retraces the exciting expedition of a team of geologists searching for the secrets of the Mediterranean's past.

Cocos: Treasure Island

059785 VH
JS 60 min 1992 Cable In The Classroom
Expedition Earth Series - A visit to the national park, located 300 miles off the shore of Costa Rica, whose rainforest species count is richer than any other area in the world.

Colombia: Gateway to South America

057058 VH
IJS 17 min 2002 Aims Media
Explores Colombia's cultural and geographic diversity. The people are a mosaic of cultures and races. The nation has a wealth of natural resources that includes vast energy reserves, agricultural, and industrial capacity, and an amazing variety of flora and fauna.

Colorado

056770 VH
IJS 25 min 2001 Cable In The Classroom
Restore America Series - This episode looks at the continuing restoration of the Molly Brown House Museum; examines various historical sites in Denver; and explores the rich history of the Pastorius House, located in the small resort known as the "Newport of the Rockies." 11/01 CIC HGTV

Commerial Shipping,Industrial Development, Habitat Restoration

051614 VH
IJ 15 min 1995 Mich. United Conservation Club
Michigan Great Lakes Coastal Zone Series - See annotation for Threatened and Endangered Species.

Communicating Between Cultures

080378 DV
ISJ 23 min 2004 TMW Media Group
Some "cultural givens" are so deeply imbedded in thought patterns they are invisible to those who hold them. Communicating Between Cultures shows howto make some of these patterns visible and improve communication. A series of cross-cultural situations show how even good intentions often go astray.

Community of Nations: Western Europe

077480 VH
IJS 21 min 1981 Bfa Educational Media
The similarities of culture, climate and geography make Great Britain, Holland, Belgium, Luxembourg, France and West Germany like a community in which there has been both harmony and deadly conflict. Since World War II they have formed economic alliances.

Confucianism & Taoism

056741 VH
JS 50 min 1999 Library Video Company
Religions of the World Series - While the major religions of the Western world affirm a belief in a single God, these two Chinese spiritual movements focus inward on human behavior and thought.

Coral Reefs

055915 VH
IJS 30 min 2000 Cable In The Classroom
This program explores one of the world's most unusual ecosystems. Created more than 35 million years ago in the Red Sea, it became a habitat for reef-building coral and other unique marine and bird species. 3/00 CIC Discovery Channel

SOC.II.2 Human/Environment Interaction

The Coral Triangle of the Philippines, Malaysia and New Guinea

077120 VH
IJS 60 min 1989 National Geographic
Nature Series - A 1988 study of destructive fishing practices in the "Coral Triangle." Observed: dynamite fishing, an illegal but prevalent method that reduces reefs to rubble; commercial fishermen who pound rocks against coral to scare fish into their nets.

Costa Rica

051688 VH
EIJ 56 min 1992 Teacher Discovery
Discover dazzling Costa Rica, the jewel at the heart of Central America, where mist-shrouded peaks loom over fertile valleys, and lush tropical forests touch unspoiled seashores.

A Country Evolves

040439 VH
IJ 20 min 1996 Michigan Instructional Tv
U.S. Geography From Sea to Shining Sea Series - Explores what it is like to live in different parts of the United States, how the U.S. came to be what it is today, and why cities and towns are located where they are. Combines a variety of maps with footage. Breaks down key features of each of the seven regions of the country. Provides an introduction and a review for students.

Courtly Art of the Ancient Maya

080348 VH
JS 30 min 2004 National Gallery Of Arts
National Gallery of Art Series - This documentary presents the culture and society that created the most advanced civilization of ancient Mesoamerica. Filmed in the state of Chiapas in southern Mexico, the program focuses on the courts of the Maya kingdoms of Palenque, Tonina and Bonampak.

Cowboys, Caimans and Capybaras

077510 VH
IJS 60 min 1988 National Geographic
Nature Series - This video surveys the central Venezuelan grasslands, where a wide variety of wildlife thrive under the watchful eyes of ranchers.

Creativity with Bill Moyers

The Gold Rush

079385 VH
IJS 23 min 1965 Encyclopedia Britannica
Westward Movement Series - Relates how the discovery of gold at Sutter's Mill changed the history of California and the nation. Filmed in the mother lode country of California and Columbia Historic State Park.

Gold Rush and the Settlement of California

094045 VH
IJ 16 min 1990 Encyclopedia Britannica
This program tells the story of men and women who risked life and limb in the hope that they would strike it rich. Students learn of the agreements, laws and treaties, and the burgeoning population through which California became the 31st state in the U.S.

Golden Gate Bridge

057570 VH
JS 60 min 2003 Cable In The Classroom
Modern Marvels Series - A look at the design and function of the longest and highest suspension bridge on Earth. 01/04 CIC History Channel

Good Eats

In this culinary-science series, host Alton Brown explores culinary customs, the origins of ingredients, food and equipment trends, and pop culture in this fun and informative look at food and eating.
For descriptions see individual titles:
For Whom the Cheese Melts [057010]
What's Up Duck? [057541]

Grand Canyon

058280 VH
IJS 29 min 1961 Walt Disney Films
Dramatic presentation of Ferde Grofe's Grand Canyon Suite is a blend of nature photography and music in a salute to a natural wonder.

Grand Canyon of the Colorado

064805 VH
IJS 30 min 1983 Kaw Valley
This video provides a thorough look at the Grand Canyon - its history, its geology, its whitewater, and its role as national park.

Grand Canyon/Petrified Forest/ Painted Desert

072255 VH
IJS 45 min 1983 Finley-Holiday
Discover the Grand Canyon, Petrified Forest and the Painted Desert. Learn the geological mysteries of each park and take a visual expedition through each park.

Grand Canyon: River of Dreams

059765 VH
JS 60 min 1992 Cable In The Classroom
Expedition Earth Series - A world champion kayaker and his wife travel down the rapids in the Grand Canyon and discover pressing conservation issues for the Colorado River.

Grassland Regions: Farmers and Herders

076330 VH
IJ 15 min 1978 Bfa Educational Media
Viewers will see how the grasslands of the Midwest in the United States and those in Kenya affect the way people live.

Grasslands

056734 VH
IJ 23 min 2001 Library Video Company
Biomes of the World in Action Series - Students will examine the importance of these regions that produce much of the world's food. From the prairies of the Great Plains to the savannas of Africa, discover the characteristics that all grasslands have in common beginning with the most obvious - grass!

The Grasslands

074610 VH
S 17 min 1962 Encyclopedia Britannica
This video illustrates the ecological interrelationships of the grasslands biome. It shows the locations of the world's grasslands, explains how they may have originated and describes their importance as food-producing areas.

The Great Barrier Reef

060920 VH
IJS 20 min 1975 Journal Films
Traces the history of the Reef since its discovery. The film shows marine biologists, ornithologists, and zoologists. Underwater sequences show colorful tropical fish, coral, and plankton, while many scenes are devoted to the bird life of the coral islands.

The Great Indian Railway

065089 VH
IJS 120 min 1998 Cable In The Classroom
National Geographic Series - This program explores the Indian subcontinent by traveling on the longest single train system in the world and meeting the people who work and travel the rails.

SOC.II.2 Human/Environment Interaction

The Great Lakes

068870 VH
JS 15 min 1981 Brauer Production
This film tells the story of the sailing ships and men who followed the Great Lakes to settle and develop the upper Midwest - the routes they navigated, the cargoes they carried, the dangers they faced, and the watery graves many found.

Great Lakes, Fragile Seas

093775 VH
IJS 60 min 1991 National Geographic
After viewing this program, students should be able to identify and locate the Great Lakes, and explain their importance as a natural resource. They should be able to discuss the ecology of the lakes - what threats face them, how scientists are working to preserve the lakes, and what successes have been achieved.

The Great Lakes: How They Were Formed

073590 VH
IJS 11 min 1951 Encyclopedia Britannica
The work on glaciers in forming the Great Lakes is the focus of this video. It also describes the present day drainage of the lakes and the physical characteristics of Niagara Falls.

Great Lakes Schooners: Early Shipping on the Great Lakes

091540 VH
IJS 13 min 1979
The "inland seas" have a history of tall ships, brave men and disastrous storms. This film tells the story of the sailing ships and men who followed the Great Lakes to settle and develop the upper Midwest-the routes they navigated, the cargoes they carried, the dangers they faced, and the watery graves many found. Underwater sequences of a wreck, original photographs, and navigation charts vividly bring to life the age of sail on the Great Lakes.

The Great Lakes Series

This series covers the 5 bodies of water that have played a vital role in the lives, history and ancestry as well as an important role in today's 50 million people who live within 100 miles of a Great Lake's port.
For descriptions see individual titles:
Lake Erie/War of 1812 and the Great Lakes [040657]
Lake Huron/Woodland Indians of the Great Lakes [040660]
Lake Michigan/Early Industry on the Great Lakes [040658]
Lake Ontario/Hydropower on the Great Lakes [040659]
Lake Superior/Geology of the Great Lakes [040656]
An Overview/The Importance of All the Great Lakes [040661]

The Great Lakes States

076990 VH
IJ 25 min 1999 National Geographic
U.S. Geography Series - Newly revised!! Bounded on the north by four of the five Great Lakes and edged by the Ohio and Mississippi Rivers, the Great Lakes region - Illinois, Indiana, Michigan, Ohio, and Wisconsin - lies virtually at the center of North America. Midway between the Atlantic and Pacific coasts, this region is the country's transportation and commercial hub. Yet beyond the hustle and bustle of the cities are the vast farms that make this area America's agricultural heartland.

Great Streets

This series tours great cities of the world by foot and features interviews with experts and residents who give both current and historical perspectives.
For descriptions see individual titles:
The Champs Elysees with Halle Berry [056274]

The Great Wall of China

056087 VH
JS 60 min 2000 Cable In The Classroom
Modern Marvels Series - In this episode, historians, engineers, and scientists examine the world's largest human-made structure and the history behind it. 9/00 CIC History Channel

The Greatest Lakes

063695 VH
JS 30 min 1984 Public Broadcasting System
The Ice Age left five sparkling freshwater seas which we now call the Great Lakes. These lakes alone contain one-fifth of all the freshwater on the face of the Earth, some 65 trillion gallons.

Greece

057751 VH
JS 30 min 2005 Cable In The Classroom
World Odysseys Series - Greece is known as the Cradle of Western Civilization, setting the stage for the rest of the world with the rise and fall of civilizations, wars, architecture and fine arts. Besides its vast history, Greece's geographical location as a peninsula and series of small islands in the eastern Mediterranean are discussed. The capital city of Athens, and great town of Peiraiefs which contains one-third of the country's population are covered. 12/05 CIC Travel Channel

Greece

091885 VH
JS 1986 Journal Films
A trip to Greece provides a look at the country's different regions and important landmarks. The industries, agriculture, and everyday pastimes of the Greek people are illustrated.

Greece: Asmina in Greece

057439 VH
PEI 13 min 2002 New Dimensions
Let's Dance! Series - Eleven-year-old Asmina's family loves folk dancing the famous Siraki, the Zeipetiko, the Syrtos and many others. Along with her brother, Constantinos, Asmina will soon be performing in a national folk dance festival that is to take place in Athens.

Greece: Sinolda in Greece

057502 VH
PEI 13 min 2000 New Dimensions
There Is No Food Like My Food Series - Sinolda is 11 and lives on the Greek Island of Hydra. Lent is over, so the celebrating begins with souvlaki, a meat and vegetable dish in pita bread. Then, the Easter Egg preparation is a ritual in its own right. It is so much fun to be able to hand them out.

Greek Civilization

072534 VH
JS 30 min 1994 Educational Audio Visual
This video explores the Islands, the mountains and the problems of the Greece, lives with the rich, and some slaves of the Greek queen.

Growing Up in Japan

056546 VH
EIJ 29 min 1999 Media Guild
Japanese schools, housing, culture, recreation and food are viewed through the eyes of American teenagers. Viewers will be struck by the similarities between teens growing up in such different societies.

Guatemala

051687 VH
EIJ 25 min 1985 Teacher Discovery
Journey through the "Land of Eternal Spring." Roam dense, tropical jungles in search of Flores, the fabled Sinking City. Venture to Lake Atitlan, nestled among volcanos. Follow the Camino Real to Antigua, where a marketplace has thrived since the 15th Century. Steep yourself in the rich flavor of Mayan mystery.

A Guide to a Healthier Diet

056574 VH
S 30 min 1988
Learn excellent advice on healthy eating, why you should exclude certain foods from your diet, and receive a good common sense eating guide that anyone can follow.

Hamburgers

057469 VH
IJS 25 min 2002 Cable In The Classroom
Unwrapped Series - Look at the hamburger's origin, build the ultimate burger, and explore the secrets of big fast-food chains. 04/03 CIC Food Network

SOC.II.2 Human/Environment Interaction

Hammer of the North

069745 VH
IJS 29 min 1980 Public
Broadcasting System
An introduction to the world of the Vikings; their homelands of Norway, Denmark and Sweden; their way of life as farmers and fishermen; and the origins of the magical runes, which served as the Viking alphabet.

Harvesting

092595 VH
P 15 min 1988 Journal Films
All Year Round Series - Explains what harvesting is and why it is important. Using examples of harvest celebrations from around the world, students will be able to see how different crops are harvested and why this is a season of celebration.

Hats Off to Michigan

056954 VH
PEI 15 min 2000 Michigan
Instructional Tv
An innovative approach for thematic teaching and learning, presenting nonchronological information about Michigan's history of transportation and trade. Connects kids with things they already know with a behind the scenes look at transportation, and then takes them on a historical ride. Students learn about commerce in Michigan today, and then go back to the 1600s for Michigan's history in trade.

Hawaii: Our 50th State (2nd Edition)

074190 VH
IJ 26 min 1984 Encyclopedia
Britannica
This video explores the geologic and cultural history of our 50th state and probes the paradox of 'aloha land' - tropical eden, military outpost, booming industrial state.

Hawaii: The Picture Islands

060885 VH
IJS 30 min Kodak Video
In this video the viewer learns the history of the volcanic origins of these islands and how the islands were settled by Polynesians seeking a new land. Natives demonstrate the ancient and dying art of outrigger-canoe fishing.

Healthier Cooking for Time-Pressed People

056575 VH
S 30 min 1988
Demonstrates healthier cooking methods and will teach you how you can prepare delicious, healthy meals that take less than fifteen minutes to make.

The Heartland

076975 VH
IJ 25 min 1983
U.S. Geography Series - Minnesota, Iowa, Missouri, Kansas, Nebraska, North Dakota, South Dakota. These are the states that make up the heartland, including the literal center of North America. This is the region where the Mississippi River begins, where pioneers launched their great push west, where fields of grain grow beyond the horizon, and where modern cities punctuate wide-open spaces. National Geographic

The Heritage

051514 VH
IJ 21 min 1994 Journal Films
Mexico Series - Many factors have played a part in defining the heritage of the modern Mexican citizen. This program examines the strongest influences and how they have affected modern life in Mexico. A history of Mexico's relations with the United States is included.

Hinduism

056742 VH
JS 50 min 1999 Library Video
Company
Religions of the World Series - Learn how and why Hinduism has survived as one of the oldest and largest world religions with nearly a billion followers located mostly in India. Hinduism encompasses wide practices and traditions largely due to its great capacity to integrate the new with the old.

History of North America: First Nations

062805 VH
J 30 min 1983 Altschul Group
Origins: History of North America Series - Defining 'first nations' by geographical regions, this program demonstrated that "the only thing stopping people from going from one region to another was the ability to survive in each new environment." The viewer sees the Arctic Region, Sub-Arctic Tundra, Eastern Woodlands, Great Lakes Region, West Coast Region, Great Plains, and Western High Plateau Region.

Hitchhiking Vietnam: Letters from the Trail

055468 VH
JS 60 min 1999 Cable In The
Classroom
This program follows a woman's 7-month solo journey across Vietnam, highlighting her rescue of endangered leopards and gibbons and her trek into the land of the Montagnards, the fierce tribe still feared by the Vietnamese. 5/99 CIC

Holy Land - Judaism, Christianity & Islam in the Middle East

079100 VH
JS 25 min 1984 Encyclopedia
Britannica
Middle East Series - Illustrates the historical claim of Jews and Palestinians to the area we call the "Holy Land" and introduces the attachments to Middle Eastern territory of Christianity and Islam.

Hoover Dam

055885 VH
JS 60 min 2000 Cable In The
Classroom
The American Experience Series - This program chronicles the construction of one of the greatest engineering works in history, a dam that rises more than 700 feet above the raging Colorado River, bringing electricity and water to the American Southwest.

Hoover Dam

055929 VH
JS 60 min 2000 Cable In The
Classroom
Modern Marvels Series - This episode explains how the world's largest dam was constructed in the middle of a desert in less than seven years. 4/00 CIC History Channel

Houseboats and Chandeliers

056418 VH
IJS 25 min 2000 Cable In The
Classroom
How's That Made? Series - The first part of this episode looks at a new breed of houseboats, which are floating mansions equipped with kitchens and state-of-the-art audio/video systems. The second segment explores the making of chandeliers. 02/01 CIC HGTV

How Do People Use Their Environment

052417 VH
IJ 15 min 1988 Agency For
Instructional Technology
Global Geography Series - People are constantly exposed to innovations - new ideas and techniques. Every spring farmers are urged to use a new herbicide to combat weeds. Almost daily families are urged to purchase new products. Teachers are regularly approached by salespeople describing the virtues of a new textbook. When people adopt an innovation or begin to use it, there are always consequences.

SOC.II.2 Human/Environment Interaction

How Fragile These Frozen Seas

068945 VH
JS 24 min 1989 Public Broadcasting System

Icwalk Series - The opening program introduces Robert Swan, his early interest in exploration and his expedition to the South Pole. He describes what motivated him to become the only man to walk to both poles to focus attention on pollution in the polar regions and the deterioration of the ozone layer. Believing in the power of the next generation to make a difference in the world, he explains the rationale for inviting young students from 15 nations to take part in the ICEWALK International Student Expedition. Their task was to find evidence of pollution through scientific work which focused on three main areas of concern in the Arctic today: acid snow, the greenhouse effect and ozone depletion.

How the Glaciers Changed Michigan

051668 VH
IJ 15 min 1992 Instructional Video
This video investigates how the ice came to Michigan; where the various glaciers reached as well as some of the physical features left behind when the ice melted.

How to Buy a Home

093845 VH
S 61 min RMI Media
Takes you through the ten-step process of buying a home, making it understandable and less scary. It acquaints the viewer with conventional and creative financing, the roles of realty and title company, how to avoid problems with the home you want to buy, how to look for value and negotiate a good idea.

How's That Made?

This series visits factories to show how various household items are manufactured and to interview the people behind the process.

IJS 30 min 1990 Hillsdale Educational Publish
A portrayal of Michigan's upper peninsula accompanied by natural sounds, a narrative of the attractions featured, and music.

Michigan Sand Dunes

066035 VH
IJS 16 min 1994
A journey through the geologic formation of Michigan's historical sand dunes. Discussion of plant and animal adaptation to the geologic changes over the years. A warning to the public of the need to protect our natural history against over-development and abuse.

Michigan Wetlands

092020 VH
EIJ 18 min 1991 Upper Midwest Video
Mostly a natural science emphasis. The glacial origin of wetlands, use of this ecosystem by pre-historic people, and the negative impact of agriculture by the first Europeans are explained. Major animal and plantlife of wetlands are shown in their natural habitat.

Michigan's Copper Country

056323 VH
EIJ 55 min 1994
The Keweenaw Peninsula, often referred to as the "Copper Country," was the scene of America's first mineral rush in the early 1840s, and soon became a thriving mix of cultures as immigrants from many lands flocked to the region in search of jobs and opportunity. As copper mining declined after the early decades of 20th century, the Keweenaw's population dwindled to a fraction of what it was in boom times. Now come along on a video trip to the cooperating sites of the Keweenaw National Historical Park.

Michigan's Great Lakes

057728 VH, DV
EIJ 8 min 2004 PHAR Productions
Discover Michigan Series - Having the largest fresh water system in the world, Michigan lakeshores stretch 3,288 miles. How the glaciers shaped Michigan's geography, and effect the climate are discussed. Each of the five Great lakes are covered, including their size and special features.

SOC.II.2 Human/Environment Interaction

Michigan's Natural Wonders

057726 VH, DV
EIJ 9 min 2004 PHAR Productions
Discover Michigan Series - The gigantic size and mileage of Michigan's surrounding Great Lakes, and why Michigan is called the Water Wonderland is discussed. Unique features of each Great lake, along with inland lakes, islands and their history are covered. The vast sanddunes and fresh water are viewed, being the largest in the world.

Michigan's Shipping

057727 VH, DV
EIJ 8 min 2004 PHAR Productions
Discover Michigan Series - Michigan is the center of the Great Lakes shipping, where the waterways have been used by Indians and frontiersmen, to the modern day cargo ships. The St. Lawrence Seaway connecting the Atlantic Ocean with the Great Lakes is discussed, along with the Soo Locks at Ste. St. Marie. Michigan lighthouses and port cities are covered.

The Mid-Atlantic States

076965 VH
IJ 25 min 1999 National Geographic
U.S. Geography Series - Newly revised!! Today, perhaps the most prominent feature of the corridor that stretches from Washington, D.C., to New York City is its dense population. However, the region's millions of people are only part of the picture here. Travel with us from Washington, D.C., to Maryland, Delaware, Pennsylvania, New Jersey, and New York to see the area's bustling harbors, impressive agricultural resources, small towns, and rural areas. And learn about the Mid-Atlantic's history that goes back to colonial times.

Middle Atlantic Region

Mountain Habitat: Glacier Country

098725 VH
IJ 14 min 1982 Altschul Group
Takes a look at glaciers, what they are and what they do. It also looks at the animals that live in the region of a glacier.

The Mountain Region

078790 VH
I 18 min 1988 Encyclopedia Britannica
United States Regions Series - Covers the mountain regions of the U.S. from Yellowstone Park to Las Vegas showing the amazing landscape of this area along with agriculture, industry and people.

The Mountain States

076985 VH
IJ 25 min 1983 National Geographic
U.S. Geography Series - Wide-open spaces, abundant natural resources, cowboys and Indians, sagebrush, snow-covered mountains, bison, wapiti and mountain goats. All are part of the western interior. Idaho, Colorado, Montana, Nevada, Utah and Wyoming make up nearly one-fourth of the continental United States.

Mountain West Region

040050 VH
IJ 20 min 1996 Michigan Instructional Tv
U.S. Geography From Sea to Shining Sea Series - Study how the geography of the mountain west region affected its development into an agricultural and commerce center.

Mountains

050050 VH
IJS 30 min 1998 Cable In The Classroom
Eyewitness Series - This episode visits these high-altitude landforms where rare plants and animals have evolved to survive the rough terrain.

Moving North to Chicago (1900-1945)

040154 VH
JS 20 min 1990 Michigan Instructional Tv
Geography in U.S. History Series - This program emphasizes the themes of urban development, migration from rural to urban areas, and the struggles of Afro-Americans to overcome segregation and other forms of racial discrimination during the first half of the 20th-century.

Mt. Rainier National Park: What is a Mountain?

072480 VH
IJS 28 min 1987 Finley-Holiday Travel
Mt. Rainier National Park, learn of the forces that shape a mountain and the ordeals of the early explorers.

My America: A Poetry Atlas of the United States

080132 DV
PE 30 min 2004 Gpn
Reading Rainbow Episodes Series - Hosted by LeVar Burton, authored by Lee Bennett Hopkins. Theme: The United States of America offers a tremendous diversity of people, geography, and history. This geographic poetry collection includes poets' descriptions of every region of the United States. Kids name all 50 states in alphabetical order, and demonstrate how the same item can have a variety of names depending where you live. Discover 6 time zones across America, and kids from Minnesota, New York and Washington are visited. Poems of various places in America are featured.

My Floating School (Caribbean)

057602 VH
EI 13 min 1998 Landmark Media Inc
I Love School Series - An 80-ton tuna ship from Brittany is both home and school to 12 year old Antoin and 9 other young people. Many subjects are learned experientially. He learns to pilot the ship and to interpret weather reports and many other things.

My School in Amazonia

057604 VH
EI 13 min 1998 Landmark Media Inc
I Love School Series - Andrea lives in a house built on wooden poles. After the national anthem and the salute to the flag science class begins with a study of Amazonia and its environment.

My School in Bangladesh

057603 VH
EIJ 13 min 1998 Landmark Media Inc
I Love School Series - Rotna and her friend Fatima attend a UNICEF school learning the 3 R's in their daily half day sessions and writing to pen pals. They practice writing in Bengali, the official language, and study their country's history. Transportation is varied, with skateboards competing with rickshaws.

My School in Ecuador

057599 VH
EIJ 13 min 1998 Landmark Media Inc
I Love School Series - 7 year old Taco is the first of his family to attend school, and dresses like his Inca ancestors with a hat and poncho. His first lesson concerns water purification, and his class salutes the flag like soldiers.

SOC.II.2 Human/Environment Interaction

My School in Mauritania

057600 VH
EIJ 13 min 1998 Landmark Media Inc

I Love School Series - 12 year old Hakim lives in a tent and walks to his school on the west coast of Africa. Islam is the official religion, both French and Arabic are spoken. Boys and girls must share a classroom because of lack of space, but sit on opposite sides of the room.

My School in Scotland

057598 VH
EIJ 13 min 1998 Landmark Media Inc

I Love School Series - On Bute Island 10 year old Edward prepares to leave his family's sheep farm to attend a boarding school on another island. Classes begin with geography.

My School in Tanzania

057601 VH
EIJ 13 min 1998 Landmark Media Inc

I Love School Series - N'Didai's school was founded by missionaries and is in session 6 days a week. Class begins with geography; Tanzania lies on the east coast of Africa and includes Mt. Kilimanjaro, the highest mountain in Africa where Swahili is the official language.

Myanmar: The Land That Was Once Burma

057057 VH
JS 24 min 2002 Aims Media
Myanmar, once known as Burma, is a land where traditional technologies, life styles, and rituals reflect a way of life that is rapidly disappearing in a modern world. Concepts included will help students to analyze how change in a country happens at different rates at different times, see connections between historical events and social, economic, and political developments, recognize the complexity of historical causes and effects, and analyze human modifications of a landscape, and examine the resulting environmental issues.

A Nation of Immigrants: Chinese-American Experience

040153 VH
JS 20 min 1990 Michigan Instructional Tv

Geography in U.S. History Series - This program treats the theme of immigration in the U.S. during the 19th and 20th-centuries with particular emphasis on movement to the western region by immigrants from China.

National Gallery of Art

This series represents a variety of titles produced by the National Gallery of Art in Washington D.C.

Restore America Series - Examining restoration projects in Harrisburg, Pittsburgh, and Philadelphia, this episode visits a state that is dedicated to restoring its past and preserving its history. 01/01 CIC HGTV

The People

051513 VH
IJ 20 min 1994 Journal Films
Mexico Series - Viewers will meet a lower class rural family, a middle class woodcarving family, and an upper class professional family, and learn that although they may have different lifestyles, they do have much in common.

People and Their Culture

096975 VH
IJS 21 min 1990 Bfa Educational
Media
South America Series - This program introduces us to the great mixture of people in South America and shows how they are affecting, and being affected by, their heritage, resources, agriculture, industry and urban vs. rural life.

SOC.II.2 Human/Environment Interaction

People of a Caribbean Island

071900 VH
IJS 18 min 1987 Altschul Group
Discusses language, music, religion, geography, education and cultures of various islands such as Jamaica, Trinidad, Bahamas, Puerto Rico and others.

People of India

071880 VH
IJS 18 min 1987 Altschul Group
Introduces the viewer to the diversity of language, culture and social customs of India. Focuses on the Hindu traditions and lifestyles of three different social groups - the very wealthy, the middle class and the poor.

People of Japan

071885 VH
IJS 18 min 1987 Altschul Group
Shows a variety of lifestyles in Japan. Follows three individuals who work at the same company. The branch manager, the sales manager, and an office secretary.

People of Perestroika-Baltic Way

065790 VH
JS 22 min 1992 Journal Films
Beyond Communism Series - Latvia, Estonia and Lithuania are featured in this program. Viewers will learn how the Baltic's location by the sea proves profitable, and of the history of the three Baltic Republics. A look at the education system in Lithuania is provided, as well as a glimpse at the Polish and Russian people that live there.

People of Perestroika-Russian Federation

065795 VH
JS 25 min 1992 Journal Films
Beyond Communism Series - Examines how the Russian people live in this time of rebuilding from Communism. A look at a middle income Russian family is provided. Many interesting locations are visited.

People of the Arabian Gulf

071890 VH
IJS 18 min 1987 Altschul Group
Shows the location of the Gulf states and gives a brief history of their development. Society is seen through the eyes of a young man, returning from an education abroad, to take responsibilities in business and family. Has emphasis on the traditional roles of men and women in Islamic society.

Peru & Brazil

057025 VH
IJS 30 min 2002 Cable In The Classroom
Amazing Destinations Series - Visit some unique locations of cultural, geographical, and historical significance in these South American nations, including Bahia and Machu Picchu. 05/02 CIC Discovery Channel

Peru: Housing in Cajamarca

057353 VH
IJS 15 min 2002 New Dimensions
Changing Cities Series - Providing newcomers with decent housing is a major problem in developing countries. We see how a typical South American city is trying to both stem migration from surrounding farmland and also use new migrants to build their own homes and develop the city plan.

Physical Geography

040603 DV
EI 28 min 1997 Michigan
Instructional Tv
Come and explore this exciting new medium for presenting content to your class. This DVD, part of the Ohana Collection, contains not only the program but also a wealth of other resources such as lesson plans, web resources, and a teacher's guide. This disc explores the impact of physical geography on the cultures of people in different regions of the world.

Physical Geography

056371 VH
EI 28 min 1997 Altschul Group
Corporation
Examines the earth's oceans and fresh water sources, the major continents and basic landforms, and the changes that are constantly occurring to the earth's surface. Also looks at the world's climates and the factors that shape those climate zones, as well as the natural resources and the many ways people use them. Considers how these aspects affect not only where people live, but how they live as well.

Rise and Fall of the Great Lakes

060095 VH
IJS 17 min 1968 Natl. Film Board
Of Canada
Lesson in geography which concludes
that although the Great Lakes had
their ups and downs, nothing has
been harder to take than what man
has done to them lately.

The Rise of Nationalism(#7)/The Legacy(#8)

091925 VH
S 106 min 1986 Films Incorporated
Africa: Voyage of Discovery Series -
#7-This video charts Africa's struggle
for independence, focusing on the final
collapse of the white minority in
Zimbabwe and on apartheid in South
Africa. #8-Looks at Africa in the
aftermath of colonial rule. Interviews
with political leaders illuminate the
problems and successes of Africa
today.

River Channel Forms

060300 VH
JS 20 min 1984 Films For The
Humanities
Earth Science Series - This program
analyzes the dynamic nature of rivers
and the relationship between their
forms and processes, examines the
various functions a single river needs
to perform. We learn to measure river
form and process, relate the two, and
synthesize several attributes.

Rivers of Life (Bangladesh)

072980 VH
JS 10 min 1978
This film portrays life in one of the
world's poorest developing countries.

Roald Amundsen: South Pole, 1911

063805 VH
IJS 49 min 1977 Time-Life Video
Ten Who Dared Series - The five-
year-old nation of Norway sent Roald
Amundsen to Antarctica to carry the
new flag to the last great blank place
on Earth. In 1910, as commander of
the "Fram," he set sail from Norway
for the Antarctic, reaching the South
Pole on December 14, 1911. He was
ahead of Robert Falcon Scott, a
British Naval officer, by just 34 days.
Scott lost his life in this deadly race.

Rocks and Minerals of Michigan

051665 VH
IJ 15 min 1992 Instructional Video
This live-action video looks at the
principal minerals and rock types
found across Michigan and their
locations across the state.

The Rocky Mountains

092905 VH
IJ 20 min 1989
*Physical Geography of North America
Series* - Shows Rocky Mountains,
including Canadian Rockies and
Yellowstone, and reveals how the
mountains are shaped by wind, water,
fire, and ice; examines plant and
animal life at different elevations.

Rory in London

057607 VH
EIJ 13 min 2003 Landmark Media
Inc
Locomotion Series - 10 year old Rory
adores taxis of which there are 30,000
in London. Cars, bikes, and the
Underground are also used for
transportation. Rory and his family
walk across the Millenium Bridge and
take a boat tour of the great city,
returning home on a double-decker
bus.

Sabelo in Kruger Park

057605 VH
EIJ 13 min 2003 Landmark Media
Inc
Locomotion Series - 10 year old
Sabelo's father and uncle walk for an
hour to catch a taxi to work. In Kruger
park even the petrol pumps are
shaped like animals. Vehicles drive on
the left side of the highways. Some
people even walk from Mozambique to
catch a minibus taxi.

Middle East Series - Three major religions are fragmented into smaller sects that compete for influence. This video illustrates several examples of this fragmentation.

Senegal: Cheik in Senegal

057514 VH
PEI 13 min 2000 New Dimensions
There Is No Food Like My Food Series - Cheik is 8 and lives in Dakar. His family organizes a big meal to celebrate a visit from his godfather. The food is charcoal-grilled outdoors, which is typical of this warm country, and the best pieces are given to the guests.

Senegal: Nialle in Senegal

057450 VH
PEI 13 min 2002 New Dimensions
Let's Dance! Series - Niall belongs to an amateur dance troupe; they are working on a modern African ballet. Her aunts are skilled dancers and they guide and help her. The festivities have begun and, by tradition, she is to dance solo in front of the village audience.

Serengeti Diary

077070 VH
IJS 50 min 1989
Baron Hugo van Lawick shares his appreciation of the spectacular landscape, the unique wildlife, and the fascinating Masai culture in and around the Serengeti.

Settlers of the Mississippi Valley

079395 VH
IJS 16 min 1962 Encyclopedia
Britannica
Westward Movement Series - Shows the rapid transformation of the Mississippi Valley during the early 1800s. It illustrates the ingenuity and spirit of these early settlers in solving problems and meeting basic needs.

Settlers of the Old Northwest Territory

079390 VH
IJS 15 min 1962 Encyclopedia
Britannica
Westward Movement Series - Beginning of the Westward Movement in the United States; first mass migration of settlers to the Northwest Territory after the Revolutionary War. Settlers worked together to clear the land, plant crops, build homes, and fight the Indians.

Settling the Great Plains

079615 VH
IJS 17 min 1932 Encyclopedia
Britannica
Westward Movement Series - Uses photographs, documents, and illustrations to recreate the settling of the Great Plains. Includes sequences of the life of the American cowboy, fence wars, and the expansion of the railroads.

Settling the Old West

094060 VH
IJ 18 min 1990 Encyclopedia
Britannica
Recounts the conflict between Indian tribes and American settlers looking for space to spread out and put down roots during the critical period of U.S. history, 1780-1820.

Settling the Oregon Territory

094065 VH
IJ 18 min 1991 Encyclopedia
Britannica
Recounts the experiences of the men and women who settled this land despite the difficulties of the journey from more settled parts of the continent. Meet voyageurs and explorers, pioneer men and women. It presents the geographic features which were so attractive to settlers, and how it eventually became the states of Washington and Oregon.

SOC.II.2 Human/Environment Interaction

Shinto

056749 VH
JS 50 min 1999 Library Video Company
Religions of the World Series - Similar to other ancient traditions, Shinto is rooted in mythology and folk rituals that are passed through the generations, yet it is unique in having no congressional worship, founder, or organizing doctrine. See how over the centuries these traditions have served to unify Japan nationally, and, at different times, mobilized the country politically.

The Shocking Truth/Living On the Edge

096565 VH
I 30 min 1991 Gpn
3-2-1 Contact Series - The Shocking Truth-All living things, people, animals and plants, produce electricity. The process is called bioelectricity. Students make wet-cell batteries to simulate living cells. Living On the Edge-Antarctic animals, few in number, live in Antarctica where air temperatures dip to below -100F. Near-freezing water is toasty by comparison so most animals live in the waters surrounding this continent.
